Our Mission & Vision

The mission of The Alliance of Minority Physicians (AMP) is to develop leaders in clinical, academic, and community medicine through active recruitment, career development, mentorship, social opportunities and community outreach geared towards underrepresented faculty, housestaff, and medical students at the University of Pennsylvania Health System (UPHS), The Children’s Hospital of Philadelphia (CHOP), and the Perelman School of Medicine (PSOM).

While the core focus of AMP’s mission is on the success of those traditionally underrepresented in medical education, AMP’s efforts to promote inclusion and diversity also include those economically disadvantaged, first-generation medical students, and others from backgrounds underrepresented in their specific discipline of field. AMP’s mission mirrors that of the University of Pennsylvania and its health partners UPHS and CHOP - which is to enrich diversity as a means of fostering innovation and a progressive community of health care leaders and problem solvers.

AMP IS PROUD TO PARTNER WITH:

Perelman School of Medicine
University of Pennsylvania

The Children’s Hospital of Philadelphia
Membership Benefits

**Professional Development**
Promoting the professional enrichment of our housestaff and young faculty is an important part of the work of AMP. To this end, we host educational workshops and speakers’ series to address critical topics such as career options and tracks in clinical, academic, and community medicine, mentorship, the job search and interview strategies, and time management.

**Social & Networking Events**
AMP Members enjoy meeting together regularly at numerous events, such as:
- New Housestaff Welcome Reception
- Happy Hours
- Housestaff Holiday Potluck
- Graduation Gala

**Recruitment**
In an effort to ensure that our hospital systems have the most diverse cohort of progressive health care leaders, we actively recruit competitive underrepresented (URM) applicants
- Outreach to all URM resident and fellowship applicants invited to interview
- Coffee, lunch or dinners with interested URM interviewees
- Participation in local, regional, and national conferences such as SNMA, LMSA, NMA, and SBAS.

**Mentorship**
Relationships between medical trainees at varying levels are important to the success of those in medicine. Through our Mentoring Families, AMP promotes the building of mentoring relationships between our medical students, residents, fellows, and attending faculty. AMP members enjoy not only the community building experience through our Mentoring Families, but are able to build connections that offer guidance in their professional careers and personal aspirations.
