# AV Technology Tier Space Descriptions and Estimated Costs

## Tier 1:
A room (typically a conference room) with a monitor/ projector and connections for connecting a device. These rooms may have a fixed in space PC or Mac. Rooms have HDMI and/ or USB-C connection for devices. (Estimated Price: $13K-20K)

Tier 1 Conference Room - Example
MTP | July 1, 2019

Tier 2:

A room that has everything a Tier 1 room has except this room has streaming or video conferencing technology. This equipment would live in the space as it is NOT connected to the Media Distribution Infrastructure System. (Estimated Price: $55K – $95K)

Tier 2 Conference Room - Example
MTP | July 1, 2019

Tier 3:

A room that is connected to the MTP fiber network. This space has the same options available in the Tier 1 & 2 rooms. It can be connected to the Media Distribution Infrastructure System.
(Estimated Price: $115K - $160K)

Tier 3 Conference Room - Example MTP | July 1, 2019
